Leaf Dish

Very easy · approx. 30 minutes

Large approx. 16 cm · small approx. 10 cm

A little dish in the shape of a leaf: for rings, tea bags, nuts or simply as autumn decor. Perfect for beginners and lovely to make with kids.

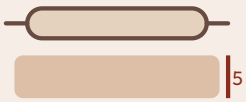

You will need

- Clay (approx. 250 g)
- Rolling pin & 2 guide sticks (5 mm)
- Needle tool or craft knife
- Sponge
- A shallow bowl & cling film
- Optional: a real leaf to press in

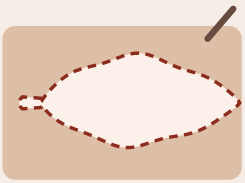

Printing

Print the templates at full size (100 %, “Actual size”). The test square on page 3 must measure exactly 5 × 5 cm.

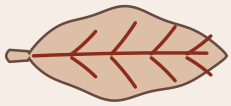

How it works

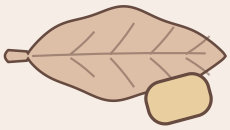

1 Roll out the clay 5 mm thick and smooth it.

2 Place the template on the slab and cut around it.

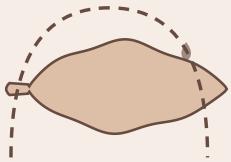

3 Score the veins or press a real leaf in with the rolling pin.

4 Soften the edges with a damp sponge.

5 Lay it into a shallow bowl lined with cling film so it curves.

6 Let it dry slowly, then bisque fire, glaze and fire again.

Tip

A real leaf with strong veins (e.g. maple or oak) gives the most beautiful imprint.

Tip

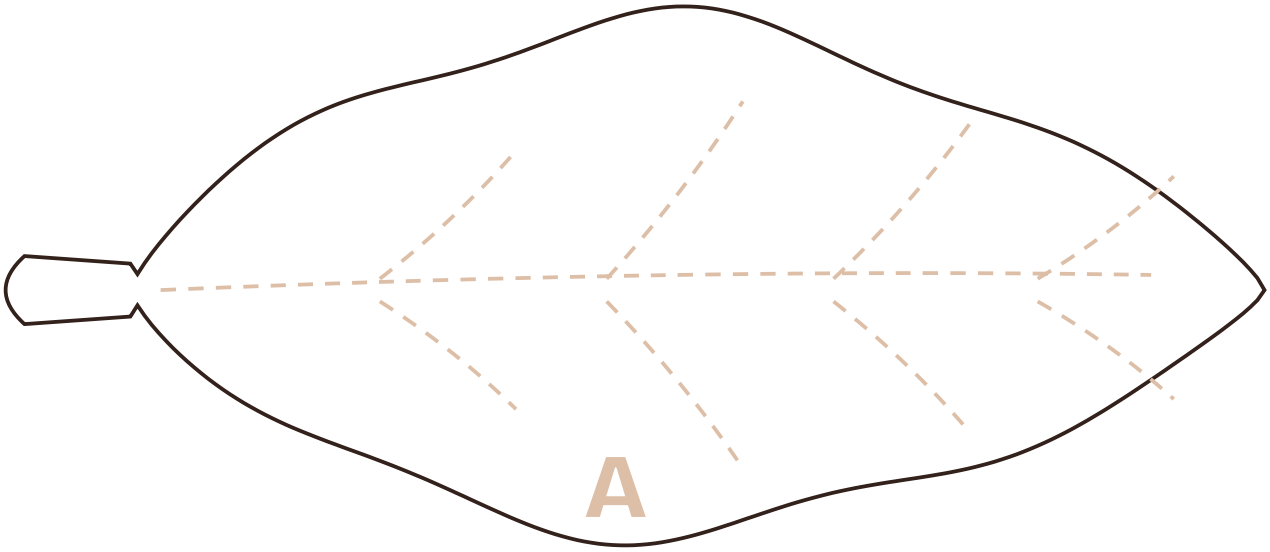

The small leaf makes a perfect tea bag rest.

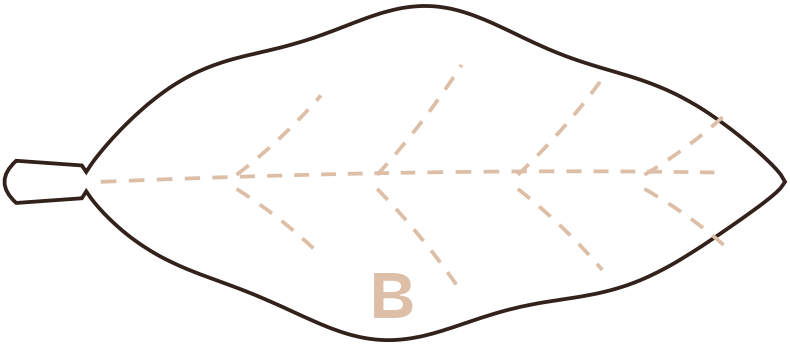

Tip

Glaze idea: wipe some glaze off so the veins shine through.

Templates · Large & small leaf

Cut along the solid line. Dashed: leaf veins to score.

Test square 5 × 5 cm
