Slab template · Autumn

Candle Snuffer

Easy · approx. 45 minutes

2 sizes · Ø 4.5 and 6.5 cm

A little hat with a wavy rim and a simple handle: hold it over the flame and the candle is out, no blowing and no wax splatter. Made from stoneware clay in about 45 minutes.

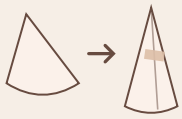

You will need

- Stoneware clay (approx. 200 g for both sizes)
- Rolling pin & 2 guide sticks (4 mm)
- Knife or craft knife
- Drinking straw for the hole in the handle
- Sponge & a little clay slurry (slip)
- Paper & tape for the support

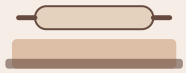

Printing

Print the templates at full size (100 %, “Actual size”), never “Fit to page”. The test square must measure exactly 5 × 5 cm.

How it works

1 Cut template A out of paper and tape it into a cone: your support.

2 Roll the clay 4 mm thick between the guide sticks and smooth it.

3 Cut out fan A and handle B, poke the hole with the straw.

4 Wrap the clay around the paper cone, scratch the seam (score), press together with slip.

5 Add a small clay ball on top. Score the handle and attach it, angled upwards.

6 Pull out the paper once the clay is slightly firm (leather hard). Dry, then fire.

Tip

Hold the paper cone over your candle first: if it fits, the snuffer fits. Clay shrinks by about 10 %.

Tip

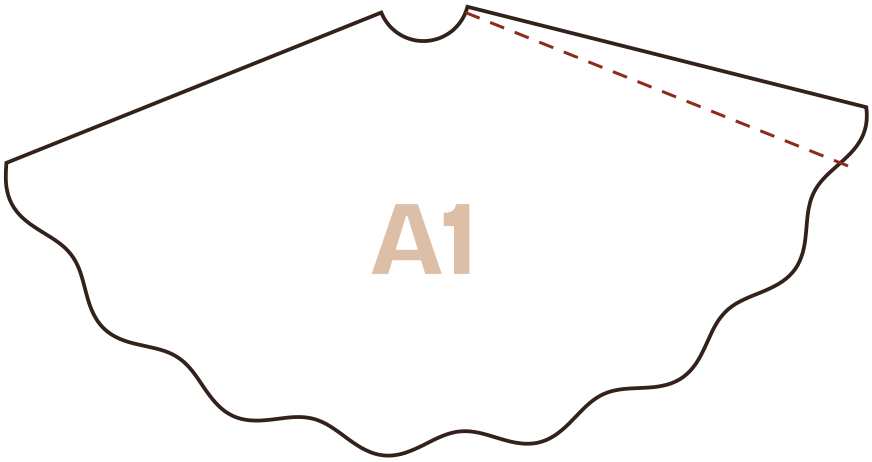

Prop up the handle with crumpled paper while drying.

Tip

A little sooty inside? Just wipe it with a damp cloth.

Templates A1 & B1 · small

For taper candles and tea lights. Dashed red: the seam overlaps from here. Score this edge and lay the other edge on top.

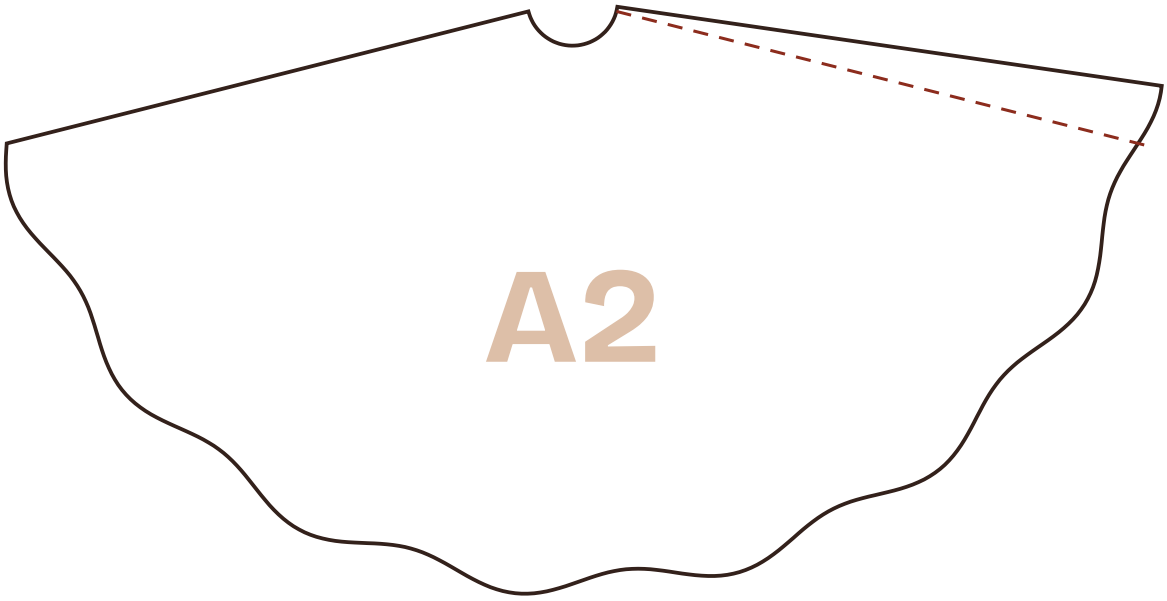

hole for hanging

Test square 5 × 5 cm

Templates A2 & B2 · large

For thick pillar candles. Dashed on the handle: score this end and attach it to the snuffer.

hole for hanging

Test square 5 × 5 cm
