# 3D Ornaments for Kids

Easy · ages 7–10

Bauble 10 & 8 cm · star · tree

Two flat pieces slotted together and your ornament turns three-dimensional.
The tree has a flat base, so it can also stand on the table.

## You will need

- Air-dry clay, salt dough or kiln clay (approx. 500 g)
- Rolling pin & 2 guide sticks (5–6 mm)
- Kids' scissors for the paper templates
- A toothpick for tracing
- Plastic or table knife (grown-ups: craft knife)
- A drinking straw for the hole
- Paint, brushes & ribbon

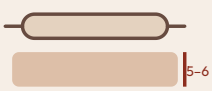

## Printing

Print the templates at full size (100 %, "Actual size"), never "Fit to page". The test square must measure exactly 5 × 5 cm.

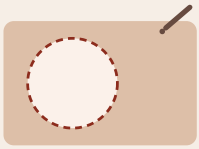

Test square 5 × 5 cm

For kids aged 7–10. A grown-up helps with the slot and the hole.

# How it works

**1** Roll out the clay 5–6 mm thick. The guide sticks keep it even.

**2** Cut out the templates, lay them on the clay and trace with a toothpick.

**3** Cut out part A and part B. A grown-up cuts the slots exactly.

**4** Punch the hole in part A with a straw. Smooth the edges with a damp finger.

**5** Let the pieces dry flat and separately, then paint them.

**6** Slide part B into part A from the top, add a ribbon and you are done!

## Slot

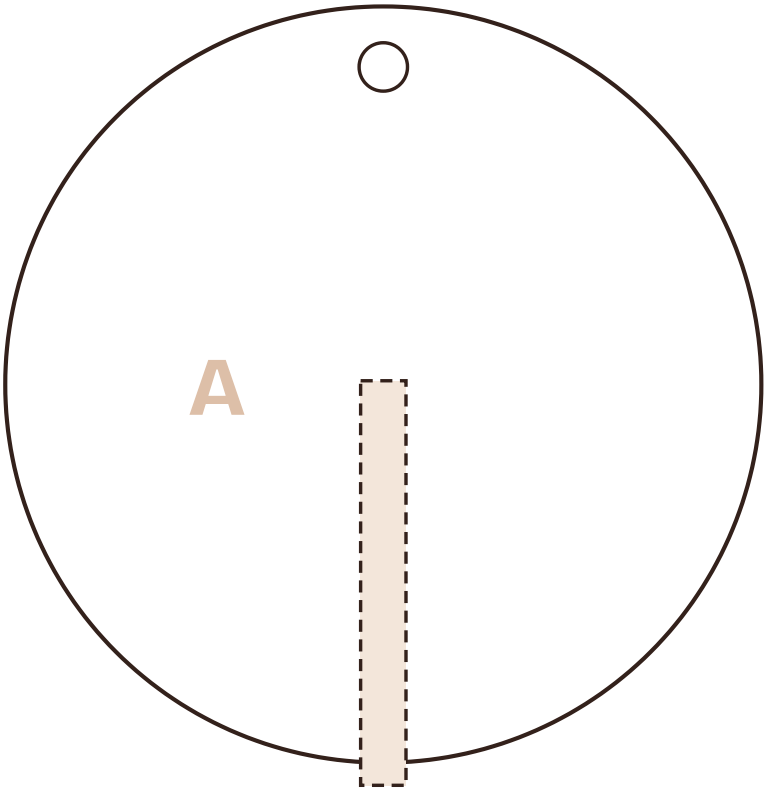

The slot is 6 mm wide to fit 5–6 mm thick clay. If your clay is thicker, cut the slot a little wider.

## Salt dough recipe

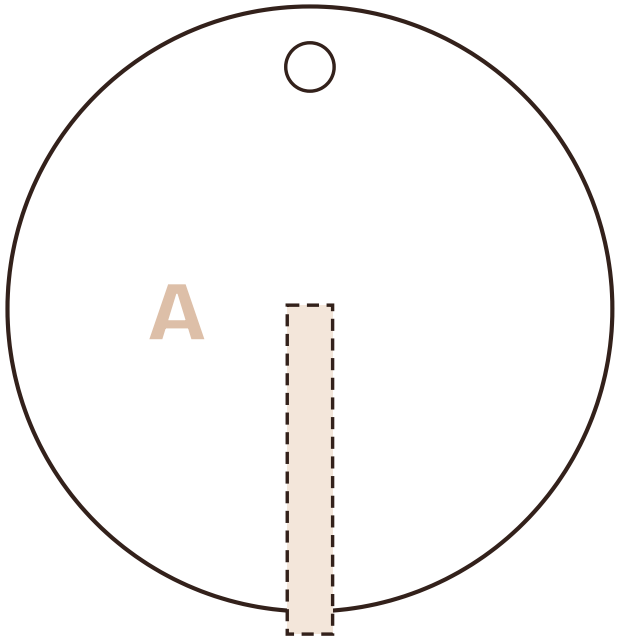

Knead 2 cups of flour, 1 cup of fine salt and about ¾ cup of lukewarm water into a smooth dough. Dry the ornaments in the oven at 120 °C (250 °F) for about 2–3 hours until hard and pale.

# Templates · Baubles 10 & 8 cm

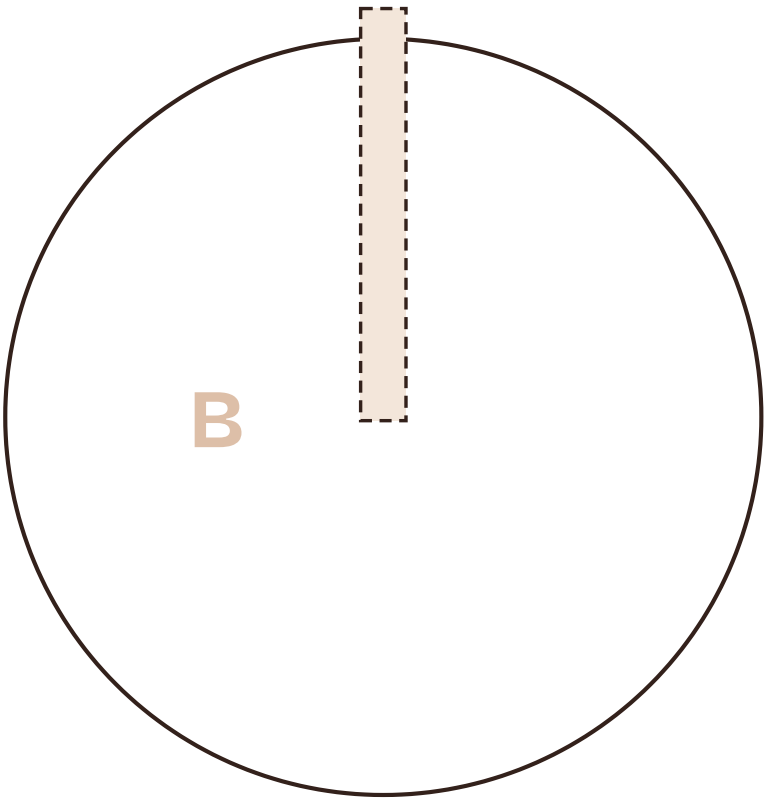

For each design you need part A (with hole, slot from the bottom) and part B (slot from the top). The shaded strip is the slot.
