Slab template · Autumn

Autumn Tea Cup

Beginner friendly · approx. 1.5 hours

Cup approx. 7.5 × 8.5 cm · saucer 14 cm

A simple slab-built tea cup with a handle, a little autumn leaf and a matching saucer. Perfect for cosy tea evenings and a lovely first project with the slab technique.

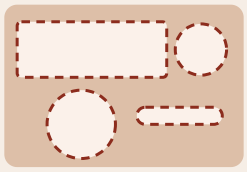

You will need

- Clay (approx. 700 g)
- Rolling pin & 2 guide sticks (5 mm)
- Needle tool or craft knife
- Fork or scoring tool & slip
- A glass or tube (approx. 7 cm) as support
- Sponge & rib

Printing

Print the templates at full size (100 %, “Actual size”). Page 3 is landscape. The test square must measure exactly 5 × 5 cm.

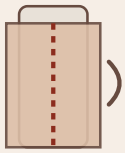

How it works

1 Roll the clay 5 mm thick. Cut out wall A, base B, handle C, leaf D and saucer E.

2 Bevel the short ends of the wall, score them and add slip.

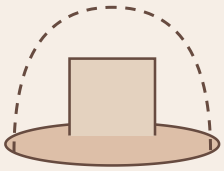

3 Wrap the wall around the glass and blend the seam well, inside and out.

4 Score base B, set the cup on top and blend all the way round.

5 Bend the handle and attach it, add the leaf with veins next to it.

6 Curve the saucer up slightly, let everything dry slowly and fire.

Tip

Wrap newspaper around the glass so the cup slides off easily later.

Tip

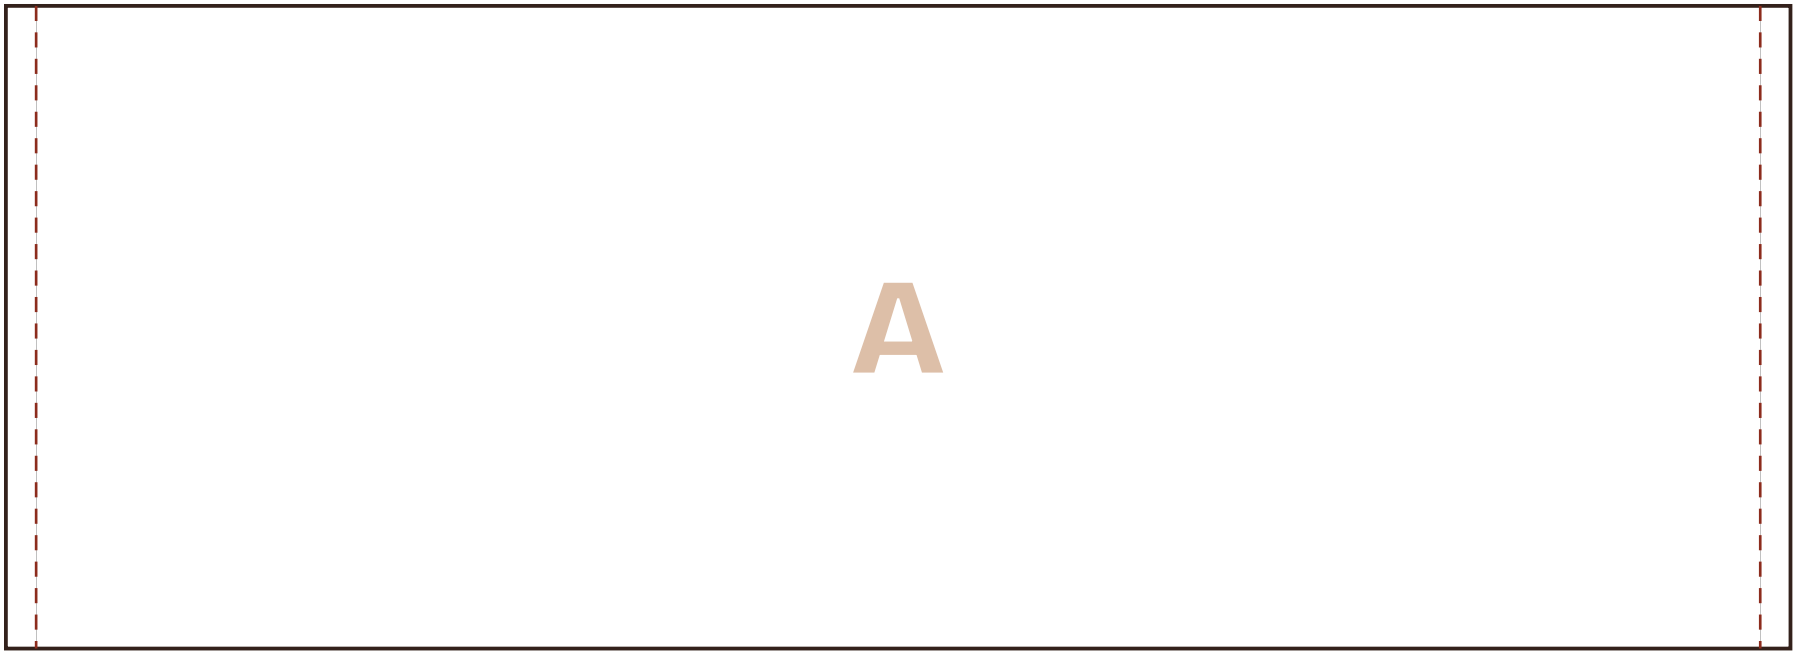

Attach the handle when cup and handle are leather hard, it holds better.

Tip

Use a food-safe glaze so you can drink from it.

Template A · Cup wall

Dashed red: bevel the short ends here so they meet neatly in one seam.

Test square 5 × 5 cm
