Bat Wall Tealight

Medium · approx. 2 hours

approx. 18 × 9 cm, for 1 tealight

A bat with curved wings for your wall, with a little shelf for a tealight. It hangs on a nail and brings a cosy-spooky glow to autumn evenings.

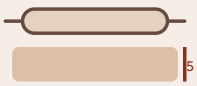

You will need

- Clay (approx. 500 g)
- Rolling pin & 2 guide sticks (5 mm)
- Needle tool or craft knife
- A drinking straw for the hanging hole
- Slip & sponge
- A rolled-up towel

Printing

Print the templates at full size (100 %, “Actual size”), never “Fit to page”. The test square must measure exactly 5 × 5 cm.

How it works

1 Roll out the clay 5 mm thick and smooth it.

2 Cut out back plate A, shelf B and lip C.

3 Punch the hole in the head. Lay the wings over a rolled towel so they curve slightly.

4 Once leather-hard: attach shelf B along the dashed line, then add lip C around the edge.

5 Let it dry slowly under cover, then fire and glaze.

6 Hang it on a nail, add a tealight and enjoy!

Tip

Support the shelf with a roll of kitchen paper while drying so it stays level.

Tip

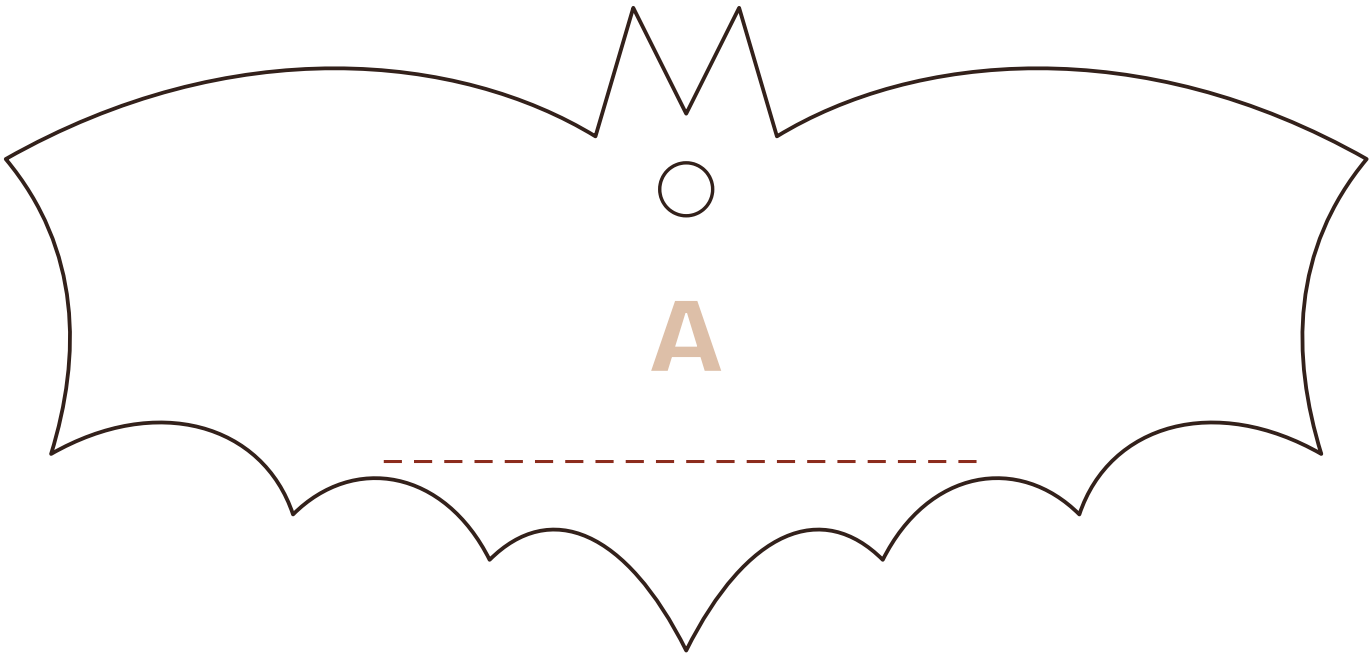

Score the eyes and ears with a needle instead of cutting them, so everything stays sturdy.

Tip

Stoneware with a real tealight. Air-dry clay: use with an LED tealight only.

Template A · Back plate

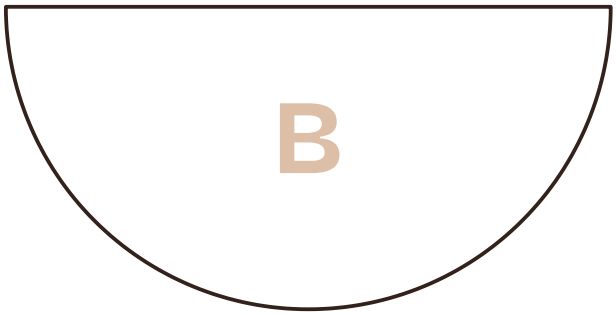

Cut along the solid line. Circle: hanging hole. Dashed: this is where the shelf goes.

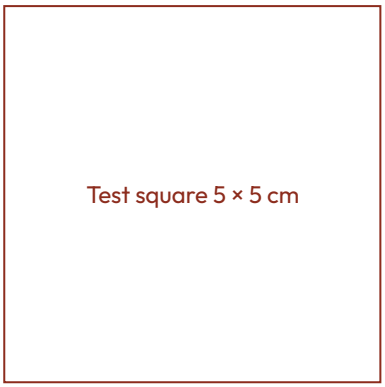

Test square 5 × 5 cm

Templates B & C · Shelf and lip

B is the tealight shelf, C the lip around it (trim if needed).

Show me your bat! Tag @forma.potteryartcraft
