Slab template · Halloween

# Ghost Lantern

Easy · approx. 1.5 hours

approx. 8 cm wide, 12 cm tall

A friendly little ghost with a floppy hat tip and tiny arms. Placed over a tealight, its eyes and mouth glow in the dark.

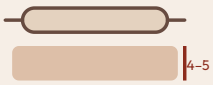

### You will need

- Clay (approx. 400 g)
- Rolling pin & 2 guide sticks (4–5 mm)
- Needle tool or craft knife
- Slip & sponge
- Paper and tape for a support cone

### Printing

Print the templates at full size (100 %, “Actual size”), never “Fit to page”. The test square must measure exactly 5 × 5 cm.

## How it works

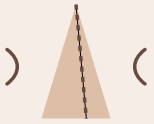

**1** Roll out the clay 4–5 mm thick and smooth it.

**2** Cut out ghost A and two arms B.

**3** Cut out the eyes and mouth, smooth the edges with a damp finger.

**4** Wrap it around a paper cone and close the seam over the tab with slip.

**5** Attach the arms at the sides and bend the tip playfully.

**6** Let it dry, fire, place it over a tealight and enjoy!

### Tip

The wavy bottom edge lets air reach the tealight so it burns nicely.

### Tip

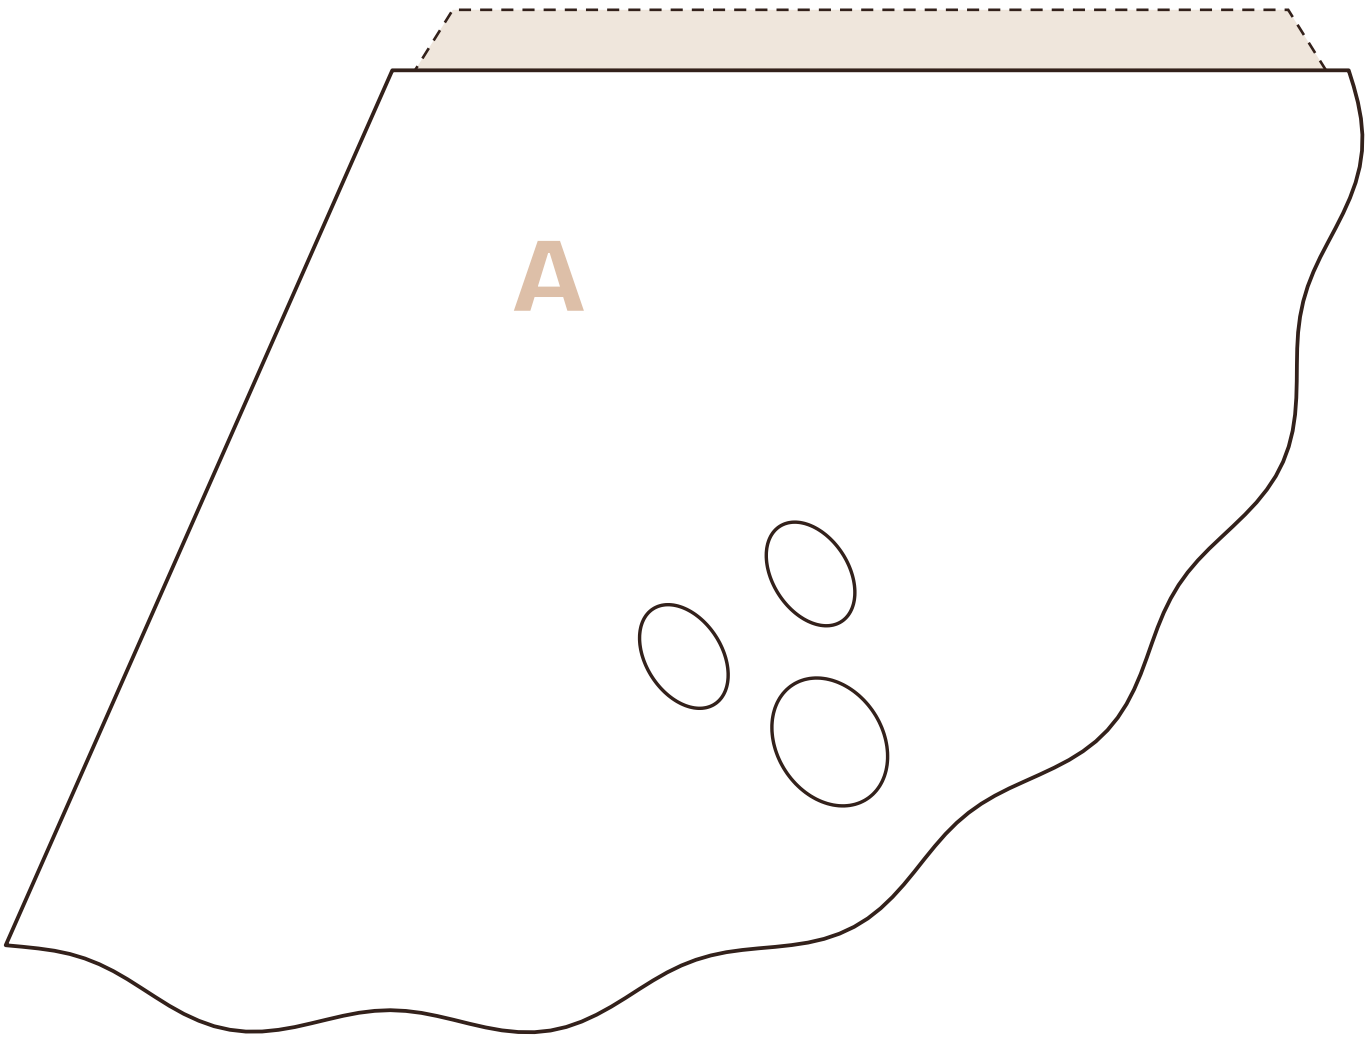

Glazed all white or left raw, the ghost looks especially lovely.

### Tip

Stoneware with a real tealight. Air-dry clay: use with an LED tealight only.

# Template A · Ghost

Cut along the solid line. Grey: tab for the seam. Cut out the eyes and mouth.

Test square 5 × 5 cm

# Template B · Arms

Cut twice, flip one of them.

Test square 5 × 5 cm
